

Supplementary Figure 17. CIC of death stratified by risk factors with violated PSH assumption in Black and White patients with IDC.

(a) CIC of death stratified by age groups 61-70 and ≥ 71 years.

(b) CIC of death stratified by N2 and N3 lymph node metastasis status.

(c) CIC of death stratified by tumor size >5 cm.

Abbreviations: CIC, cumulative incidence curves; IDC, invasive ductal carcinoma; PSH, proportional subdistribution hazard.
