

Supplementary Figure 2. Mortality HR(t) curves for risk factors violating the PSH assumption in patients with DCIS.

(a) Mortality HR(t) curves for age ≥ 71 .

(b) Mortality HR(t) curves for age 61-70.

(c) Mortality HR(t) curves for micropapillary carcinoma.

Abbreviations: HR(t), cause-specific hazard ratio; DCIS, ductal carcinoma in situ; PSH, proportional subdistribution hazard.
